Hosiery measuring guide

A size indicator can be found by a coloured thread in the stocking

	Red	Blue	Green	Yellow	Purple
Size	Small	Medium	Large	Extra large	Extra Extra large*
Hip	Up to 107cm	107 – 112cm	112 – 122cm	122 – 132cm	N/A
A	40.5 – 53.0cm	43.0 – 55.0cm	48.0 – 60.5cm	53.0 – 66.0cm	N/A
B	30.5 – 37.5cm	33.0 – 40.0 cm	35.5 – 43.0cm	38.0 – 46.0cm	40.0 – 49.0cm
C	19.5 – 25.5cm	21.5 – 27.5cm	22.5 – 29.5cm	23.0 – 32.0cm	23.5 – 34.0cm
D	20.5 – 24.0cm	23.0 – 26.0cm	25.5 – 29.5cm	26.5 – 32.5cm	26.5 – 32.5cm

* For availability of XXL garments, please see PIP codes on reverse.

Patient measurements

Measurement	Left leg	Right leg
Hip		
A: 5cm below groin		
B: Widest part of the calf		
C: Just above the malleolus (ankle bone)		
D: From back of heel to the longest toe		

L&R's new Compression Reminder Service gives the wearer a little nudge when it's time to renew their stockings.

Have you provided information on how to access this support?

Access and information available by:

- Visiting www.squeezein.life
- Ask the wearer to scan this QR code
- Providing a referral leaflet

Clinic or Pharmacy Address:

(Please specify the address where the patient will collect their hosiery)

Garment prescribed

For guidance on which level of compression is most suitable for the patient's condition, please refer to the indications overleaf. **N.B.** Sizing charts vary from one manufacturer to another. Please ensure you prescribe products using the correct chart.

Size requested

Please state the number of packs you require

Please note

If your patient has a long foot in proportion to their other leg measurements, an open-toe option is advisable. Open toe is also appropriate where you require access to the toes.

If your patient's measurements do not fit into the stock sizes then a 'made to measure' garment may be more appropriate. If oedema is present in the patient's limb, you may choose to consider applying ActiLymph® European Compression Hosiery. For more information please see our website at www.Lohmann-Rauscher.co.uk or call customer care on 08450 606 707

Activa® British Standard Hosiery Range

Product & Style Colour of size indicator thread in stocking	Colour	Small Red	Medium Blue	Large Green	Extra Large Yellow	Extra Extra Large Purple
Liner Pack - 10mmHg						
The Activa® liner provides light compression for maintenance therapy, palliative care and for patients who are non-concordant with higher levels of compression, working on the assumption that some compression is better than none. They may be used with other compression stockings to increase compression on the limb, or to build the compression level in layers if the patient struggles to apply a higher class of hosiery.						
Stocking Liner (3 Singles)	White	311-8767	311-8775	311-8783	311-8791	311-8809
Stocking Liner (3 Singles)	Sand	326-9750	326-9768	326-9776	326-9784	326-9792
Stocking Liner (3 Singles)	Black	387-0805	387-0813	387-0821	387-0839	387-0847
Stocking Liner Open Toe (3 Singles)	Sand	340-3557	340-3565	340-3573	340-3581	340-3599
Class 1 - 14-17mmHg						
Activa® Class 1, medically proven, graduated support hosiery provides effective compression in the treatment of superficial and early varicose veins, including those during pregnancy. Class 1 hosiery can reduce the risk of Deep Vein Thrombosis in lower risk groups during long-distance travel or in long periods of inactivity.						
Thigh Length	Sand	259-0305	259-0339	259-0362	259-0396	-
Thigh Length	Honey	259-0313	259-0347	259-0370	259-0404	-

40mmHg Leg Ulcer Hosiery Kit						
The Activa® Leg Ulcer Hosiery Kit is designed to be an alternative treatment and maintenance solution in the management of uncomplicated venous leg disorders. The hosiery kit is suitable for patients who will not accept compression bandages and is particularly suitable for self-caring and younger patients.
