# Simple steps to making ordering **ReadyWrap®** effortless

Add your **ReadyWrap®** products to our online tool, and we'll generate a PDF for you to **print** and **post** or **upload** to the patient's records.

**STEP 1**

**Select the garments:** Use the Compression Selection App or measuring form to determine which products, sizes, colours and variants your patient requires.

**STEP 2**

**Enter garments into the tool:** Scan the QR code to access the ordering support, enter each garment one at a time.

**STEP 3**

**Enter details:** Fill out your details (health professional), the patient's name, DOB, and prescription payment status.

**STEP 4**

**Delivery options:** Choose whether products are sent to the patient or your clinic and agree to the privacy policy (note: L&R does not store these details).

**STEP 5**

**Download documents:** Click 'Generate ReadyWrap® form' to download a GP referral letter or dispensing form to support a written prescription. These will also be emailed to you.

**STEP 6**

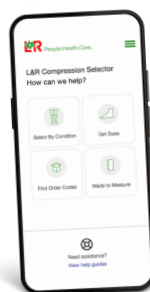

**Next steps:** Consider sending the prescription to a dispensing appliance contractor like North West Ostomy Supplies (Homecare by NWOS).

**STEP 1**

## Don't Forget

- Compression starts from the foot! Consider a **ReadyWrap® Foot CT** when ordering a calf piece.
- Add additional **ReadyWrap® Liners** to enable your patient to have a clean liner everyday under their garment.
- The 10cm **ReadyWrap® Extender Straps** allow for varied limb measurements and shapes, up to three extenders can be added for a perfect fit.

# Measuring for ReadyWrap® - Top Tips!

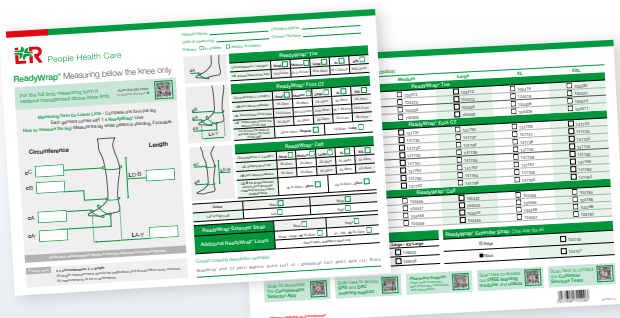

- 1 Measure a naked leg
- 2 Ideally measure **as early as possible in the day**
- 3 **Measure in cm** not inches
- 4 Know where **'0'** is on your tape measure
- 5 Measure the **contour of the calf** when measuring length
